- Field trip opportunities available for many of the programs!

## Summer Camp Program Descriptions

### Summer Junior and Senior Social Skills Programs

Our Summer Social Skills Programs are available for children 4-11 years old (Summer Jr.) and children 12-15 years old (Summer Sr.), who can participate in a group of 6 children, without the need for individual support to address language, self-care or emotional regulation goals.

In our Social Skills Program, children will enjoy a wide variety of weekly theme-based activities that target specific social goals (e.g. conversation skill, joining play, expressing emotions appropriately etc.) Our daily schedule includes time in our classrooms, outdoor play area and sensory gym as well as weekly field trips. Using the D.I.R model, the teachers will support the children in being able to think, relate and communicate. Additionally, the activities planned will provide a unique way of incorporating social and emotional goals into our social skills lessons. We maintain a 3:1 child to instructor ratio to ensure that every child's needs are met in our program.

### 1:1 Transition Program

The Summer 1:1 Transition Program is available for children 3-16 years of age, who require on-on-one attention for maximum focus on goals relating to individual communication, academic, social skills, life skills, and co and self-regulation. Using DIR/Floortime Model, instructors of this program will develop an individual program plan to meet each child's unique learning and sensory profile. Children in this program will also participate in group social activities with the support of their instructor.

For both programs, daily verbal and written feedback will be sent home outlining strengths, challenges and goals. At the end of the 2 week block, a detailed written report will go home highlighting achievements and continued areas of improvement.
