

OAKWOOD ACADEMY

COVID-19 FAMILY SCREENING FORM

Oakwood is committed to keeping our community's health and safety our top priority. Part of our Health and Safety policies includes families complete this screening form prior to your child's entrance each day. If we do not receive this completed screening form **before 8:00 am**, your child will not be permitted to attend school or sessions.

Student's Name (Last, First): _____

Date of Birth: ____/____/____
MM DD YYYY

1. Does your child have **ANY** of the following new or worsening *most common* COVID-19 symptoms?
 - a. Fever (37.8C or higher) and/or chills Yes No In-home daily temperature read _____
 - b. Cough or barking cough Yes No
 - c. Shortness of breath Yes No
 - d. Decrease or loss of taste or smell Yes No

2. Does your child have **ANY** of the following new or worsening *lesser common* COVID-19 symptoms?
 - a. Runny nose and/or nasal congestion Yes No
 - b. Headache Yes No
 - c. Sore throat or difficulty swallowing Yes No
 - d. Muscle aches and joint pain Yes No
 - e. Extreme fatigue Yes No
 - f. Nausea, Vomiting and/or diarrhea (gastrointestinal) Yes No

3. Is your child fully vaccinated against COVID-19? (Fully vaccinated = 14 or more days since their final dose of either a two-dose or a one-dose vaccine series)
Yes No

4. Do any of the following apply? (If the individual isolating has not tested positive for COVID-19 and only has ONE of the symptoms listed under question 2, select "No.")
 - a. Your child lives with someone who is currently isolating because of a positive COVID-19 test
 - b. Your child lives with someone who is currently isolating because of COVID-19 symptoms
 - c. Your child lives with someone who is currently isolating while waiting for COVID-19 test results
Yes No

5. Has your child been identified as a "close contact" of someone who currently has COVID-19 AND been advised to self-isolate? (If public health has advised you that you do not need to self-isolate, select "No.")
Yes No

6. Has a doctor, health care provider, or public health unit told you that your child should currently be isolating or staying home?
 Yes No
7. Do any of the following apply?
 • In the last 14 days, the child has travelled outside of Canada and was told to quarantine.
 • In the last 14 days, the child travelled outside of Canada and was told to not attend school (please note that if the child is not fully vaccinated but is exempt from federal quarantine because they travelled with a vaccinated companion, **they must not attend school for 14** days – Select YES if this applies to the child).
 • In the last 14 days, someone your child lives with has returned from travelling outside of Canada and is isolating while awaiting results of a COVID-19 test.
 Yes No
8. In the last [5, 10] days, has your child tested positive for COVID-19 on lab-based PCR test, a rapid antigen test or a home-based self-testing kit? (If your child is fully vaccinated OR 11 years old or younger, use 5 days. If your child is 12 years old or older and not fully vaccinated/unvaccinated OR are immune compromised, use 10 days)
 Yes No
9. I agree to follow the guidelines outlined in Oakwood's Health & Safety policies and procedures.**
 I agree

I certify that the above information is true to the best of my knowledge.

Results of Screening Questions:

If you answered "YES" to any of the symptoms included under question 1 and/or TWO or more symptoms included under question 2:

- Your child should isolate immediately and not leave home except to get tested or for a medical emergency:
 - If your child is NOT tested AND
 - is 12 years of age or older AND fully vaccinated, OR
 - is 11 years of age or younger regardless of vaccination status, your child must isolate for:
 - At least **5 days** from their symptom onset (day 0 = first day symptoms developed) AND until your child's symptoms have been improving for 24 hours (or 48 hours if gastrointestinal symptoms) whichever is longer in duration.
 - If your child is NOT tested AND
 - Is 12 years of age or older AND either partially vaccinated/unvaccinated, OR
 - Immune compromised, regardless of age, your child must isolate for:
 - At least **10 days** from their symptom onset (day 0 = first day symptoms developed) AND until your child's symptoms have been improving for 24 hours (or 48 hours if gastrointestinal symptoms) whichever is longer in duration.
- All household members, including siblings must isolate for their child's isolation period regardless of vaccination status.
- If testing is available:

- If a single PCR or rapid antigen test (RAT) is **positive**, your child should follow the guidance outlined in question 8.
- If a single PCR test or TWO rapid antigen tests (RATs) collected 24-48 hours apart are both **negative**, the child may return to school provided that their symptoms have been improving for 24 hours (48 hours if gastrointestinal symptoms).
- If your child's symptoms worsen, seek advice from Telehealth or your healthcare professional.

If you answered "YES" to only ONE symptom included under question 2:

- Your child must isolate until their symptoms are improving for at least 24 hours, or 48 hours for any gastrointestinal symptoms (nausea, vomiting, and/or diarrhea).
- Other people in your household do not need to self-isolate.

If you answered "YES" to question 4:

- Your child must isolate for their household member's isolation period while there is anyone in the home who is isolating because of symptoms, a positive COVID-19 result, or is waiting for a COVID-19 test result.
- All household members should stay home at the same time as the household member who has COVID-19 symptoms or is a positive COVID-19 case, **regardless of vaccination status**.

If you answered "YES" to questions 5 or 6:

- Your child must isolate (stay home) and not leave except to get tested or for a medical emergency.
- If your child develops symptoms, follow isolation guidance found under results to "If you answered "YES" to any of the symptoms listed under question 1 and 2 – follow the appropriate isolation periods described above.
- If the student/child is isolating because they were identified as a close contact of someone who currently has COVID-19 and advised to isolate, or because of an outbreak or contact tracing, siblings or other people in the household can go to school, child care or work, but must not leave the home for other, non-essential reasons. Your child may be deemed a close contact due to an exposure within the **community** (not including school).
- Note: Current Ontario guidelines state that if your child is exposed to a confirmed positive COVID-19 case or suspected COVID-19 case **at school**, they WILL NOT be considered a close contact and not need to isolate. Monitor your child for symptoms and inform HS@oakwoodacademy.ca immediately, should any symptoms develop.

If you answered "YES" to question 7:

- Your child should remain in isolation until the end of the 14-day quarantine after return to Canada and get tested as per federal requirements.
 - This also applies for unvaccinated youth ages 12-17 years of age, even if they are dependents of fully vaccinated travelers.
- If your child is fully vaccinated and does not have symptoms, they do not need to self-isolate for the 14-day quarantine period after return to Canada, but must follow the Government of Canada's testing requirements. If your fully vaccinated child develops symptoms or tests positive, your child must self-isolate and you should contact your local public health unit or doctor/health care provider for more advice.
- Unvaccinated children under 12 years of age and dependents of fully vaccinated travelers will also be exempt from quarantine; however, they **must** avoid group settings, such as schools, camps or daycares.
- If someone your child lives with is isolating following return from travelling outside of Canada and received a take-home PCR test at the airport, is symptomatic following international travel OR is awaiting test results, the student must stay home until the individual has received a negative PCR test result.

If you answered “YES” to question 8:

- Your child must isolate (stay home) and only leave for a medical emergency.
- If your child is **fully vaccinated** OR **11 years old or younger**, they must isolate for **5 days** from when symptoms started or from when they tested positive for COVID-19 (whichever was first) and stay in isolation until their symptoms have been improving for 24 hours (or 48 hours for gastrointestinal symptoms), whichever is longest.
- If your child is **12 years old or older** and **partially vaccinated/unvaccinated** OR is **immune compromised**, they must isolate for **10 days** from when the symptoms started or from when they tested positive for COVID-19 (whichever was first) and stay in isolation until their symptoms have been improving for 24 hours (or 48 hours for gastrointestinal symptoms), whichever is longest.
- Household members, including siblings, must stay home at the same time as your child, whether they are fully vaccinated or not.

If you answered “NO” to all questions, your child may go to school.

- As per regular protocols, all sick individuals with any symptoms of illness should stay home and seek assessment from their regular health care provider if required.
- Individuals with severe symptoms requiring emergency care should go to their nearest emergency department.
- If an individual develops symptoms outside of the list above, the public health unit may recommend other measures including testing based on an assessment of the individual's symptoms and exposure history.

Families must fill out and submit a Back to School form to HS@oakwoodacademy.ca prior to returning.
